

Clear vision. Intelligent solutions.

Perspecta was formed to take on the big challenges. And we know what it takes to enable our customers to build a better nation. It's more than know-how — it's a relentless drive and commitment to mission success.

About Perspecta

At Perspecta, everything we do, from conducting innovative research to cultivating strong relationships, supports one imperative: ensuring our customers success. And with a workforce of approximately 14,000, more than 48 percent of which is cleared, we have been trusted to do just that, as a partner of choice across the public sector.

Lean Six Sigma certifications

Markets we serve

Civilian

With a portfolio of services encompassing managed IT services, cybersecurity, application services and business process outsourcing, Perspecta works with civilian customers to improve outcomes and deliver public value in their IT services.

Defense

Defense operations across all domains—land, air, sea, space and cyber—must be relentless and precise to protect the security of our nation. We are committed to delivering the best technology and service solutions to meet the unique needs of the United States Armed Forces.

Health care

We work closely with health care organizations to enhance patient care, lower costs and increase efficiency. With a sharp focus on their mission, we empower these organizations to improve business outcomes and advance public health.

State and local

We partner with state and local governments in more than 30 states to identify and deliver the right infrastructure, business solutions and digital transformation services that help achieve policy objectives and enable integrated citizen-centric services.

Intelligence

We provide the data and systems expertise, mission focus and enterprise awareness that intelligence agencies need to protect our country from terrorism, proliferation, chemical and biological warfare, cybersecurity threats and foreign counterintelligence activities.

Empowered to help our customers

Perspecta. Our name speaks to the insight we have. Together with our customers we combine clear, focused thinking with bold ideas.

Mission-led. Mission-united.

At Perspecta, we question, we seek and we solve. Because we know what it takes to answer our nation's most pressing challenges.

With a track record of exceptional performance and a decades-long legacy rich in accomplishment, we have a deep understanding of our customers and their missions, and lasting relationships because of it.

Our team of engineers, analysts, investigators and architects work tirelessly to help our

customers achieve their missions, transform to digital environments, secure, modernize and optimize their enterprises, and innovate for the future. We have the expertise and experience not only to innovate next-gen solutions, but to execute on them successfully.

Our perspective lets us see further, connect more dots and enable our customers to shape the future of their organizations.

10 offering families

Analytics and data services

Deliver rapid insights and data-driven analysis that enhance customers' business and mission outcomes

Digital workplace

Enable customers to accomplish their missions through a user-focused digital workplace environment

Cloud computing and infrastructure services

Optimize and secure our customers' legacy IT infrastructure and private, public and hybrid cloud environments
